Kareem Farrell

Full-Stack Developer

+ 1 868 281-4246 kareemfarrelldev@gmail.com https://github.com/kdfarrell/

SUMMARY

I am a Computer Science student at the University of the West Indies with experience building full stack web applications using Python. Comfortable working across the backend and frontend, from building APIs to designing responsive interfaces. Familiar with tools such as Figma and Postman, and always focused on writing clean, maintainable code. Looking to bring that same approach to a professional environment.

EDUCATION

B.Sc. Special Computer Science — St. Augustine, Trinidad & Tobago
University of the West Indies — 09/2023 – Present

RELATED COURSEWORK

Object-Oriented Programming, Data Structures and Algorithms, Computer Networks, Web Programming and Technologies, Computer Architecture, Software Engineering, Enterprise Database Systems, Operating Systems.

PROJECTS

YouTube Playlist Downloader

Personal Project
https://github.com/kdfarrell/Playlist2Mp3

- Built a Flask backend handling YouTube URL validation, audio extraction, and MP3 conversion via yt-dlp and FFmpeg.
- Implemented automatic ZIP packaging for playlist downloads with temporary file cleanup after each session.
- Designed a responsive multi-page interface using HTML and CSS with real-time loading indicators during conversion.

Student Grids

Group Project - University of the West Indies

- Collaborated with a 4-person team to build a web application that automates transcript parsing and degree audit evaluation for specific degree programmes, tracking credit completion across core, elective, and foundation requirements to determine graduation eligibility.
- Features include secure advisor authentication, asynchronous batch PDF processing, public transcript previews, and downloadable graduation reports.
- Contributed to the Django backend and frontend, implementing views, application logic, and responsive templates in Bootstrap 5 and HTML/CSS.

Personal Portfolio

Personal Project
https://darius-dev.vercel.app/

- Built and deployed a personal portfolio website using HTML, CSS, and JavaScript, featuring a responsive layout with project showcases linking to live demos and source code.

SKILLS

Languages: HTML, CSS, JavaScript, Python, Java, C++
Frameworks & Libraries: Django, Flask, Vue, Bootstrap, Tailwind CSS
Tools: Git, Postman, Figma
